VISION - INNOVATION - SUCCESS

Welcome From the Director

We have a learned, caring, supportive and dedicated team motivated to help every child not just in their academic development but also to develop them into strong characters.

Welcome to this seat of learning

Prof. Usha Singh (BHU)
Director
Vardhan International School

On earth there is no purifier as great as knowledge.

Our mission is not just to provide world class infrastructure and amenities but also to provide an education that ignites the minds of our children so that they inculcate the belief in themselves that they are destined to be successful, whatever field they choose in their life. If only infrastructure and amenities could make world class institutions, five star hotels would have ranked top in the academic world.

We have envisioned Vardhan International School as an Institution where everyone is committed to the task of giving its children an opportunity to realise and reach the apex of their potential. Education at VIS should be the starting point of a child's journey of education and life which will pave the path of success.

Principal's Message

"Education is a shared commitment between dedicated teachers, motivated students and enthusiastic parents with high expectations"

Today, the role of a school is not only to pursue academic excellence but also to motivate and empower its students to be lifelong learners, critical thinkers, and productive members of an ever-changing global society.

At Vardhan we provide an atmosphere to our students for multifaceted development, where children are encouraged to channelize their potential in the pursuit of excellence. This can only be possible in a holistic, student-centric environment. The talents, skills, and abilities of each student need to be identified, nurtured, and encouraged so that he / she is able to reach greater heights. Students need to be provided with a platform to think, express, and exhibit their skills. It is necessary to empower them to negotiate several issues that confront them, with the teacher being a facilitator.
